Outline

1. Goal of this Project
2. Data
3. Classifier
4. Prediction
5. Class Prevalence

A simple slide

- the first, very @important@, point!
- the previous point shows the use of the special markup which translates to the Beamer specific *alert* command for highlighting text.

The above list could be numbered or any other type of list and may include sub-lists.

A more complex slide

This slide illustrates the use of Beamer blocks. The following text, with its own headline, is displayed in a block:

Theorem (Org mode increases productivity)

- *org mode means not having to remember LaTeX commands.*
- *it is based on ascii text which is inherently portable.*
- *Emacs!*
